Manufacturers' s Limited Warranty

Product introduction;

The device has the advantage of fashionable outline, compact size and light in weight. it adopts 3w*3pcs high power LED diodes as lighting source, with strong points of high brightness, long operation lifetime and low power consumption. it can realize the effect of gradually drawing, strobe, brightness adjustable and so on. with sound controlled function, the dynamic effect would be altered according to rhythm of music.

Instruction:

After unpacking, please check whether the projector has been damaged by transport such as screw loosening, reflecting mirror broken, etc.

Check before electrification. check whether the projector has been laid correctly and stably, whether the voltage of the power is adapted to the requirement, otherwise we' ll not be responsible for the damage of the light.

This projector is the first class protected equipment. Notice that while using the green and yellow wires have to connect to the ground properly by professionals. p

Please examine the electric and voltage before powering on it. we suggest customers apply for a voltage regulator of 110v to keep supplied power steady. it' ll check itself in seconds after being electrified, could be used.

Technical parameters;

Input voltage	220v50Hz
Rated Power	20W
Bulb voltage	LED3W*3PCS (R1 G1 B1)
Fuse	2A
Weight	2.3KG
Size	()CM
